COTTON CROP OF THE UNITED STATES, 1790-1911.

Intelligent use of the following table depends upon observing these explanations:

YEAR.—The year mentioned is, for production, that of planting and growth; but ginning continues into the following calendar year. When, in want of figures for production, a commercial crop is taken, this represents the trade movement beginning September 1 of the growth year and ending August 31 of the following year. The year of exports and imports begins October 1 of the growth year for the period 1790-1842 (1842 is a nine-month year); July 1 for 1843-66 (1866 is a 14-month year); and September 1 for 1867 and subsequently; except that the average price of exports per pound given for the years 1791-1800 (average for following and nearly coincident calendar years adopted) is derived from a report of Secretary of Treasury Woodbury (Ex. Doc. No. 146, 24th Cong., 1st sess.)

AREA.—Of production: Contiguous United States; of trade: Contiguous United States, and, subsequent to their annexation, Alaska, Hawaii, and Porto Rico; of total consumption: Contiguous United States, no allowance being made for the production and trade of Alaska, Hawaii, and Porto Rico, because too small, if anything, to affect the result.

PRODUCTION—NET WEIGHT PER BALE.—1790-1898, Bulletin No. 9, above, and Latham, Alexander & Co., above, except that for the Census crops of 1849, 1859, and 1869 the equivalent 400-pound bale, net lint, computed for the Census, is adopted, 1899 and subsequently, Census. Linters not included.

PRODUCTION—TOTAL NET WEIGHT.—1790-1834, production, report of Secretary Woodbury, above; 1839, 1902, and subsequently, production, Census; 1835-38, 1840-48, 1850-58, 1860-68, 1870-78, 1880-88, 1890-98, commercial crop; 1849, 1859, 1869, 1879, 1889, 1899, 1900, and 1901, production, number of bales multiplied by average net weight per bale. Linters not included.

PRODUCTION—PER ACRE.—1868-78, 1880-88, 1890-98, 1900 and subsequently, Bureau of Statistics, United States Department of Agriculture; 1879, 1889, 1899, Census.

PRICE PER POUND OF LINT.—1869-98, and 1907 and subsequently, farm price, December 1, Bureau of Statistics, Department of Agriculture, specific inquiry; 1899, Census, total farm value divided by total net weight, 1900-1, no information; 1902-6,

TOTAL VALUE OF LINT.—Total net weight multiplied by price per pound, except for 1899, Census. Linters not included, because included in value of seed, which was in total as follows for the only years for which ascertainable: At the farm, 1899, \$46,950,575; at the mill, 1902, \$80,209,194; 1903, \$84,050,000; 1904, \$90,930,000; 1905, \$75,470,000; 1906, \$81,340,000; 1907, \$87,330,000; 1908, \$92,420,000; 1909, \$123,740,000; 1910, \$142,860,000; 1911, \$127,420,000.
